Division of Developmental Disabilities 1789 W. Jefferson Phoenix, AZ

Preface DES/DDD Published Rate Schedule July 1, 2006

The Division is required by A.R.S. 36-557 to publish a RateBook that announces the rate structure that shall be incorporated by reference in contracts for client services.

This document p	resents:
-----------------	----------

The rate schedules for all services for which a rate has been set,
The accompanying independent model, if developed, and
The methodology that was used in deriving the rates through the independent modeling
process.

The Division strives to maintain the rates at current market levels. The RateBook contains rates that reflect these levels through the depiction of *Benchmark* rates. Actual rates paid by the Division may deviate from the *Benchmark* rates. This deviation may cause rates paid by the Division to be either higher or lower than *Benchmark* rates. The actual rates paid by the Division are labeled as *Adopted* rates.

Special Note:

With the implementation of the FOCUS system, the edits used by the Division to validate claims have become much more strict. Unless a submitted claim has a valid rate (listed in the RateBook) for a service that is in effect for the date of service included on the claim, the claim will be rejected by the FOCUS system.

To assist Qualified Vendors with claims submitted to the Division, the Division has posted a comprehensive listing of published rates, the *Division Rate Look Up File*, on the Division website. This listing provides a schedule of all published rates and the effective date range for which the rate is valid. Qualified Vendors are encouraged to utilize the *Division Rate Look Up File* in conjunction with this document to ensure the proper rate is used for the date of service on the claim.

Difference Between Current Rate Schedules and Those Released on January 1, 2006

Please review the attached schedules carefully, as most of the rates have been revised. The following is a list of difference from the last set of schedules published January 1, 2006:

- 1. Titles for all services in the Rate Schedule have been changed (if necessary) to conform to the contracted service specification from the source Request For Qualified Vendor Application.
- 2. All services, except those listed below, received an increase to the Benchmark rates of 1.6%.

3. The ratio of adopted-to-benchmark rates for most services was increased to 100.00

percent. Services where SFY 06 adopted rates were lower than 100.00 percent of the SFY

- 5. For Habilitation, Vendor Supported Developmental Home (Adult & Child), SFY 07 adopted rates remained at their respective SFY 06 levels. The ratio of adopted-to-benchmark was re-calculated based upon the increase to the benchmark rate.
- 6. Habilitation, Nursing Supported Group Home additional rates have been displayed for the daily rate for all levels of this service. The additional rates displayed included rates that have been modified to include:
 - a. Nutritional Supplement
 - b. Incontinence Supplies
 - c. Nutritional Supplement & Incontinence Supplies
- 7. Nursing, short-term and Nursing, continuous additional rates have been displayed to clarify the rate to be billed when the Qualified Vendor is serving four (4) clients with a one direct service staff person. In addition, the seven (7) rate schedules previously displayed has been reduced to two (2), Nursing, short-term and Nursing, continuous.
- 8. Support Coordination rates for all Support Coordination services have been changed due to the 're-base' of the rate. The Independent Model for all Support Coordination services has been revised to reflect changes to assumptions on caseload. The Adopted-to-Benchmark ratio for all services will remain at 100% for all Support Coordination services.

- 9. Group Supported Employment rates previously displayed for this service when the staff to consumer ratio was either '1: 6.51 To 7.5' or '1: 7.51 To 8' have been removed from the rate schedule for this service. Rates for group sizes greater than 6 were transitional and expired on June 30, 2006
- 10. Billing codes have been omitted from this version of the RateBook. Please refer to the Division Billing manual, located on the Division's website, to ensure the proper code is utilized when billing for services.

NOTE: Because Amendment #11 to Request For Qualified Vendor Applications #704011 contains amendments related to the billing methodology for Habilitation, Community Protection and Treatment Group Home and all Therapy services, a new RateBook will be issued with these changes incorporated after the issuance of the amendment. The new rates are anticipated to become effective on September 1, 2006 and will be available for claims submitted to the Division beginning October 1, 2006 for services provided in September.

Purpose of This Schedule

This schedule contains the rates that will begin on July 1, 2006. The Schedule contains two columns of rates. The first column labeled "Benchmark Rate" contains the rates that the Division calculated through its rate setting process. The second column labeled "Adopted Rate" contains the rates that the Division adopted for the published rate schedule and these are the rates to be used for each service when billing the Division.

Unit of Service

- 1. The basis of payment for all Home-Based Services except for Respite, Continuous is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:
- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for .75 hour.
- 2. If the Qualified Vendor provides respite for a total of 13 or more hours (consecutive or non-consecutive) in one calendar day, this is considered to be Respite, Continuous. A calendar day is a 24-hour stretch of time that begins at midnight and ends at 11:59 p.m. of the same day. One unit of Respite, Continuous equals one day (13 or more hours in one calendar day) of direct service time. A Qualified Vendor billing for Respite, Continuous will bill for the appropriate number of days of service and will include the actual cumulative hours of service provided on the billing document as required by the Div
- 3. In no event will more than three consumers receive the same service with a single direct service staff person at the same time.

The element of the schedule is either new or was changed from the January 1, 2006 release

Rate

- 1. The hourly rate for this service is based on hour (60 minutes) of direct service time.
- 2. The daily rate for this service is based on Staff Hour unit of service. Staff Hours are the hours provided by the Qualified Vendor that the Division authorizes the Qualified Vendor to schedule and provide at the service site to assure health, safety, and the delivery of habilitation services to the residents.
- The Division will make payments to the Qualified Vendor on the per diem basis based on the hourly rate for the Staff Hour unit of service, the number of residents at the site, and the direct service hours provided up to the number of authorized direct service hours for the site.

Unit of Service - Hourly

- 1. The basis of payment for this service is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. The Qualified Vendor may bill the Division an hourly rate if and only if the Division authorizes this invoicing of an hourly rate. The Division will authorize an hourly rate if:
- Direct service time that is authorized in a given setting is less than 16 hours (consecutive or non-consecutive) on any calendar day. A calendar day is a 24-hour stretch of time that begins at midnight and ends at 11:59 p.m. of the same day, or:
- Direct service time that is authorized in a given setting is less than 112 hours in a week. A week is a consecutive seven day stretch of time that begins at midnight on Sunday and ends at 11:59 p.m. the following Saturday.
- 2. If the Qualified Vendor provides an hourly unit of direct service time, when billing the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:
- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for 0.75 hour.
- 3. If the Qualified Vendor provides an hourly unit of direct service time and the Qualified Vendor provides this service with a single direct service staff person to multiple consumers at the same time, the basis of payment for each consumer will be the total direct service time multiplied by the appropriate multiple client rate for the same unit of service. In no event will more than three consumers receive this service with a single direct service staff person at the same time.

Unit of Service - Daily

- 1. The basis of payment for this service is an hourly unit of direct service time converted into a daily rate. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. The Qualified Vendor may bill the Division a daily rate if and only if the Division authorizes this invoicing of a daily rate. The Division will authorize a daily rate if:
- Direct service time that is authorized in a given setting is more than 16 hours (consecutive or non-consecutive) on any calendar day in a week. A calendar day is a 24-hour stretch of time that begins at midnight and ends at 11:59 p.m. of the same day, or:
- Direct service time that is authorized in a given setting is more than 112 hours in a week. A week is a consecutive seven day stretch of time that begins at midnight on Sunday and ends at 11:59 p.m. the following Saturday.

- 2. The Daily Rates schedule for Habilitation, Individually Designed Living Arrangement contains 22 tables with Daily Rates, and each table refers to one of 22 ranges. Each range represents a level of staffing with the number of direct service hours that are authorized by the Division to be provided by the Qualified Vendor at a particular site during a week. The number of hours specified in each range represents the number of direct service hours the Qualified Vendor must provide in a week in order to bill the per diem rates associated with that range. These Daily Rates are statewide for all Habilitation, Individually Designed Living Arrangement.
- 3. The Qualified Vendor shall invoice for payment for each consumer the per diem rate on the Daily Rates schedule for Habilitation, Individually Designed Living Arrangement that reflects the number of residents in the facility and the range of hours provided in a week that reflect the lesser of 1) the authorized direct service hours, or 2) the actual direct service hours delivered. The Qualified Vendor may calculate the weekly direct service hours weekly, or may calculate a monthly average of weekly direct service hours at the end of the month for that month.
- 4. If the Qualified Vendor elects to calculate a monthly average of weekly direct service hours at the end of the month, the Qualified Vendor shall determine the total number of direct service hours in a given month and determine the average number of direct service hours per week by dividing (the total number of direct service hours in a month) by (the number of weeks in a month).
- a. If there are 31 days in a month, then the number of weeks in a month is 4.43
- b. If there are 30 days in a month, then the number of weeks in a month is 4.29
- c. If there are 29 days in a month, then the number of weeks in a month is 4.14
- d. If there are 28 days in a month, then the number of weeks in a month is 4.00
- 5. The per diem rates paid to a Qualified Vendor with multiple sites will vary among homes according to the authorized direct service hours, actual direct service hours provided, and number of residents at each home.
- 6. Because direct service hours provided can vary by week (if the Qualified Vendor does not elect to calculate a monthly average of weekly direct service hours, and the number of occupants can vary both by week and within a week, the Qualified Vendor may bill more than one per diem rate for each resident on their monthly invoice, but none of the rates billed shall be in excess of the rate which reflects the number of authorized direct service hours.
- 7. The Qualified Vendor shall use the actual resident occupancy receiving services to determine the per diem rate to be billed to the Division. The actual resident occupancy includes all residents, whether or not they are funded by the Division. The Qualified Vendor must notify the DDD Program Administrator/Manager or designee about movement into or out of a site by any resident, whether or not funded by the Division. The Division shall determine if direct service hours will be adjusted on a temporary or permanent basis to reflect the need for direct service hours.
- 8. If a resident is not at the site on a particular day, the Qualified Vendor shall not bill the Division for this resident. In this situation, the Qualified Vendor shall bill the Division the per diem rate for the actual number of Division-funded residents.

If Habilitation, Individually Designed Living Arrangement-Daily is provided by the Qualified Vendor for pre-authorized hours that are not shown on this schedule, the Qualified Vendor should contact their District Program Manager or Designee to obtain the proper rate to bill.

Arizona Department of Economic Security, Division of Developmental Disabilities SFY 07 Benchmark and Adopted Rates Day Treatment and Training Services

Unit of Service

- 1. The basis of payment for this service is the ratio rate. To determine the appropriate billing rate, the Qualified Vendor shall:
- a. Divide (the total billable hours consumers attended the program including hours allowed pursuant to item 3 below, excluding hours for behaviorally or medically intense consumers with a specially authorized rate) by (the total direct service staff hours with consumers present at the program, excluding hours related to behaviorally or medically intense consumers with a specially authorized rate); and
- b. Use the resulting quotient, which is the number of consumer billable hours per direct service staff hours and can be stated as "1: (result from step a.)" staff to consumer ratio, to find the appropriate staff to consumer ratio rate on the rate schedule.
- c. The Qualified Vendor may calculate this ratio on a daily basis using actual hours for each day or may calculate the ratio at the end of the calendar month using the actual number of hours for the entire month to determine an average ratio for the month.

For example, if the number of hours attended by all consumers in a program plus the hours allowed pursuant to item 3 below (excluding behaviorally or medically intense consumers with a specially authorized rate) totaled 110 hours for a day (2,200 for the month), and the number of hours worked by direct service staff when consumers were present at the program (excluding hours related to behaviorally or medically intense consumers with a specially authorized rate) totaled 28 for that day (560 for the month), then the calculation would be:

- Total billable consumer hours divided by total direct service staff hours = 110 / 28 or 2,200 / 560 = 3.928
- This program's ratio for this day is 1:3.928

For both consumers and direct service staff, units shall be recorded daily on the per consumer and per direct service staff basis, shall be expressed in terms of hours and shall be rounded to the nearest hour, as illustrated in examples below:

- If total hours for a consumer or direct service staff were equal to 3 hours and 5 minutes, round the total to 3 hours
- If total hours for a consumer or direct service staff were equal to 5 hours and 24 minutes, round the total to 5 hours
- If total hours for a consumer or direct service staff were equal to 5 hours and 30 minutes, round the total to 6 hours
- If total hours for a consumer or direct service staff were equal to 6 hours and 48 minutes, round the total to 7 hours

For Day Treatment and Training, Adult:

- 2. Absences do not constitute a billable unit except as provided in item 3 below. An absence factor was built into the model rates. The Division will not compensate Qualified Vendors for any absences. For example, if a consumer stays in the day program for two hours in the morning, then leaves for two hours, and then returns for three hours, and all activity takes place within the same program day, total hours for this consumer shall be equal to five for that day. If the consumer permanently stops attending the Qualified Vendor's facility, then the Qualified Vendor shall notify the DDD Program Administrator/Manager or designee. The Qualified Vendor shall not bill the Division for vacancies.
- 3. Qualified Vendors that do not provide transportation for a particular consumer may include up to one hour per day if that consumer arrives after his/her scheduled arrival time on that day or if that consumer leaves before his/her scheduled departure time on that day. The calculation of the ratio will use the billable hours. However, if the client is absent for the entire day, the Qualified Vendor may not include hours for that day for that client in the ratio. In no event shall the Qualified Vendor submit a claim for more than the number of hours authorized for that consumer

For Day Treatment and Training, Children:

- 2. Absences do not constitute a billable unit except as provided in item 3 below. An absence factor was built into the model rates. The Division will not compensate Qualified Vendors for any absences. For example, if a consumer stays in the day program for two hours in the morning, then leaves for two hours, and then returns for three hours, and all activity takes place within the same program day, total hours for this consumer shall be equal to five for that day. If the consumer permanently stops attending the Qualified Vendor's facility, then the Qualified Vendor shall notify the DDD Program Administrator/Manager or designee. The Qualified Vendor shall not bill the Division for vacancies.
- 3. Qualified Vendors that do not provide transportation for a particular consumer may include up to 30 minutes per day if that consumer arrives after his/her scheduled arrival time on that day or if that consumer leaves before his/her scheduled departure time on that day. The calculation of the ratio will use the billable hours. However, if the client is absent for the entire day, the Qualified Vendor may not include hours for that day for that client in the ratio. In no event shall the Qualified Vendor submit a claim for more than the number of hours authorized for that consumer.

Modified Rates

Rural*

The Division established a separate rate for this service in the rural areas of the state. This modified rate is authorized on a program basis and has a premium over the standard rate for this service. The Qualified Vendor shall bill the Division this modified rate only after it receives authorization from the DDD Program Administrator/Manager or designee. The general guideline for authorizing the modified rate for rural areas is that the potential client base of the program size has fewer than 20 consumers in a 40 mile radius.

Unit of Service

- 1. For Home Health Aide and Nursing Services:
- 1.1 The basis of payment for all Services except for Nursing, Continuous is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:
- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for .75 hour.
- 1.2 If the Qualified Vendor provides nursing for more than 16 hours in one day, this is considered to be Nursing, Continuous. One unit of Nursing, Continuous equals one day (16 or more hours in a 24-hour period) of direct service. A Qualified Vendor billing for Nursing, Continuous shall bill for the appropriate number of days of service and include the actual cumulative hours of service provided on the billing document as required by the Division. If the Qualified Vendor provides nursing for 24 hours and the same nurse provides the service and is able to sleep eight hours, this is billed as Nursing, Continuous. However, if the needs of the consumer require 24 hours of awake skilled care, then this is billed as Nursing, Short Term. Skilled hourly nursing and nursing respite may be combined. However, if the primary caregivers are out of the home for 24 hours or more, the skilled hourly nursing becomes respite and is billed as Nursing, Continuous.
- 2. For Therapies:
- 2.1 One unit of evaluation equals one visit for evaluation.
- 2.2 The basis of payment for this service other than evaluation is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:
- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for 0.75 hour.
- 3. Except for Nursing Services, in no event will more than three consumers receive the same service with a single direct service staff person at the same time.

Unit of Service

- 1. The basis of payment for this service is one month of service time. Units shall be recorded on a per consumer per month basis.
- 2. In the event that this service is provided for less than one whole month, a monthly unit shall be expressed as a fraction of one, rounded to the nearest 1/100th, according to the actual number of days in that month. For example, if in May the consumer was enrolled with the Qualified Vendor for only 20 days:
- The unit of service shall be recorded as 1 divided by the number of days in a given month, multiplied by the number of days consumer was enrolled (= 1/31 * 20 = 0.64516 = 0.65)
- In this example, the rate for May shall equal 0.65 multiplied by the published rate
- 3. This service may not be provided to more than one consumer at the same time.

Unit of Service

For Center-Based Service

- 1. The basis of payment for this service is an hourly unit of time in which the consumer is in attendance in contact with direct service staff and verified by the consumer. Any fraction of an hour should be billed in 15-minute increments. When billing, the Qualified Vendor should round consumer attendance time to the nearest 15-minute increment, as illustrated in the examples below:
- 1. If consumer attended for 65 minutes, bill for 1 hour.
- 2. If consumer attended for 68 minutes, bill for 1.25 hour.
- 3. If consumer attended for 50 minutes, bill for .75 hour.
- 2. Total hours for a consumer's attendance shall not include time spent during transportation to/from the consumer's residence.
- 3. Absences do not constitute a billable unit except as provided in item 4 below. An absence factor was built into the rates. The Division will not compensate Qualified Vendors for any absences. For example, if a consumer stays in the employment program for two hours, then leaves for two hours, and then returns for three hours, and all activity takes place within the same program day, total hours for this consumer shall be equal to five for that day.
- 4. Qualified Vendors that do not provide transportation for a particular consumer may include up to one hour per day (up to 30 minutes associated with a late arrival and up to 30 minutes associated with an early departure) if the consumer arrives after his/her scheduled arrival or leaves before his/her scheduled departure time on a given day. However, if the consumer is absent for the entire day, the Qualified Vendor may not bill any hours for that day for that consumer.
- 5. If a consumer permanently stops attending the Qualified Vendor's program, then the Qualified Vendor shall notify the DDD support coordinator/supervisor and District Employment Program Specialist. The Qualified Vendor shall not bill the Division for vacancies.

For Group Supported Employment

- 1. The basis of payment for this service is an hourly unit of time in which the consumer is in attendance in contact with direct service staff and verified by the consumer. Direct service time begins when the consumer shows up at the job site or staging area, whichever is earlier. Any fraction of an hour should be billed in 15-minute increments. When billing, the Qualified Vendor should round consumer attendance time to the nearest 15-minute increment, as illustrated in the examples below:
 - If services were provided for 65 minutes, bill for 1 hour.
 - If services were provided for 68 minutes, bill for 1.25 hour.
 - If services were provided for 50 minutes, bill for .75 hour.
- 2. Total hours for the consumer shall not include time spent during transportation to/from the consumer's residence.
- 3. The basis of payment for this service is the ratio rate. To determine the appropriate billing rate, the Qualified Vendor shall:
- a. Divide (the total billable hours consumers attended the group supported employment) by (the total direct service staff hours with consumers present at the program, excluding hours of employment support aides); and
- b. Use the resulting quotient, which is the number of consumer billable hours per direct service staff hours and can be stated as "1: (result from step a.)" staff to consumer ratio, to find the appropriate staff to consumer ratio rate on the rate schedule.
- c. The Qualified Vendor may calculate this ratio on a daily basis using actual hours for each day or may calculate the ratio at the end of the calendar month using the actual number of hours for the entire month to determine an average ratio for the month.
- d. The ratio of consumers per direct service staff of 6.51 7.5 : 1 and 7.51 8 : 1 are transitional and will expire on June 30, 2006.

Arizona Department of Economic Security, Division of Developmental Disabilities SFY 07 Benchmark and Adopted Rates Employment Support Services

For example, if the number of hours attended by all consumers in a group supported employment program totaled 30 hours for a day (600 for the month), and the number of hours worked by direct service staff when consumers were present at the program (excluding employment support aide hours) totaled 6 for that day (120 for the month), then the calculation would be:

Total billable consumer hours divided by total direct service staff hours = 30 / 6 or 600 / 120 = 5.0

This program's ratio is 1:5

For both consumers and direct service staff, units shall be recorded daily on the per consumer and per direct service staff basis, shall be expressed in terms of hours and shall be rounded to the nearest 15-minute increment, as illustrated in examples below:

If total hours for a consumer or direct service staff were equal to 3 hours and 5 minutes, round the total to 3 hours

If total hours for a consumer or direct service staff were equal to 5 hours and 24 minutes, round the total to 5.5 hours

If total hours for a consumer or direct service staff were equal to 5 hours and 48 minutes, round the total to 6 hours

- 4. Absences do not constitute a billable unit, including late arrivals and early departures. As absence factor was built into model rates. The Division will not compensate Qualified Vendors for any absences. For example, if a consumer stays in the employment program for two hours, then leaves for two hours, and then returns for three hours, and all activity takes place within the same program day, total hours for this consumer shall be equal to five for that day.
- 5. If a consumer permanently stops receiving services from the Qualified Vendor, then the Qualified Vendor shall notify the DDD support coordinator/supervisor and District Employment Specialist. The Qualified Vendor shall not bill the Division for vacancies.

For Individual Supported Employment

- 1. The basis of payment for this service is an hourly unit of Qualified Vendor staff time spent directly with or specific to the consumer and verified by the consumer. A job coach/job search hour shall include activities such as:
- 1.1. Meetings with the consumer and/or employer;
- 1.2. Travel time of Qualified Vendor staff to and from the consumer's worksite; and
- 1.3. Other tasks necessary to support the consumer to keep or obtain the job and be successful including, but not limited to, job development, career development counseling, on-the-job training, job coaching, ongoing employer contact, job search activities, mobility training, worksite analysis and report writing.
- 2. When billing, the Qualified Vendor should round its staff time to the nearest 15-minute increment, as illustrated in the examples below:

If activities were conducted for 65 minutes, bill for 1 hour.

If activities were conducted for 68 minutes, bill for 1.25 hour.

If activities were conducted for 50 minutes, bill for .75 hour.

3. If the consumer permanently stops participating in the Qualified Vendor's program, then the Qualified Vendor shall notify the DDD Support Coordinator/Supervisor/designee and the District Employment Program Specialist. The Qualified Vendor shall not bill the Division for non-participation.

For Employment Support Aide

1. The basis of payment for this service is an hourly unit of direct staff service time. Direct service time is the period of time spent by the Employment Support Aide with the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:

If services were provided for 65 minutes, bill for 1 hour.

If services were provided for 68 minutes, bill for 1.25 hour.

If services were provided for 50 minutes, bill for 0.75 hour.

Note: The Adopted rate for all Employment Support services is equal to 99% of the Benchmark rate. This ratio will remain in effect until June 30, 2006, at which time it will revert to then-prevailing ratio of Adopted to Benchmark rate.

Arizona Department of Economic Security, Division of Developmental Disabilities SFY 07 Benchmark and Adopted Rates Specialized Habilitation Services

Unit of Service

- 1. The basis of payment for *Habilitation, Music* and *Habilitation, Communication* is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:
- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for .75 hour.
- 2. If the Qualified Vendor provides *Habilitation, Music* and *Habilitation, Communication* with a single direct service staff person to multiple consumers at the same time, the basis of payment for each consumer will be the total direct service time multiplied by the appropriate multiple client rate for the same unit of service. In no event will more than three consumers receive this service with a single direct service staff person at the same time.
- 3. The basis of payment for *Specialized Habilitation, Behavioral-B and M* is an hourly unit of staff service time. Staff service time is the period of time spent with or on the behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increments.
- 4. For Habilitation, Communication, the Qualified Vendor shall use the following guideline to determine the billing rate:
- To bill at Level I rate, the direct service staff must have an Associates degree in a related field and/or Assistive Technology Certification and/or Teacher's Aide Certification with 2 years of experience in communication related activities such as sign language, assistive technology, augmentative communication with knowledge of behavior management and/or adaptive activities; five years of experience as described above can be substituted for degree/certification certificate.
- To bill at Level II rate, the direct service staff must have a Bachelors degree in education or therapy related field with specialty training in sign language, assistive technology, augmentative communication with knowledge of behavior management and/or adaptive activities.
- To bill at Level III rate, the direct service staff must have a Masters degree in education or therapy or related field with specialty training in sign language, assistive technology, augmentative communication with knowledge of behavior management and/or adaptive activities.

Arizona Department of Economic Security, Division of Developmental Disabilities SFY 07 Benchmark and Adopted Rates Transportation Services

Rates

- 1. Separate urban and rural rates and procedure codes are established for transportation services. Except for "Flat Trip Rate for Regularly Scheduled Daily Transportation" and "Employment Related Transportation," urban transports are those that originate within the Phoenix and Tucson metropolitan areas. All other transports that are not "Flat Trip Rate for Regularly Scheduled Daily Transportation" or "Employment Related Transportation" are defined as rural.
- 2. The "Flat Trip Rate for Regularly Scheduled Daily Transportation," "Employment Related Transportation" and exceptional transportation modified rates can only be used, and shall be the only rate used, for transportation of a consumer to a day treatment program by a Qualified Vendor that is not an independent provider.
- 3. Separate urban and rural rates are established for the "Flat Trip Rate for Regularly Scheduled Daily Transportation." The Qualified Vendor shall bill the Division the rural rate only after it receives authorization from the DDD Program Administrator/Manager or designee. The general guideline for authorizing the rural "Flat Trip Rate for Regularly Scheduled Daily Transportation" rate for rural areas is that the potential Day Treatment and Training client base of the program size has fewer than 20 consumers in a 40 mile radius.
- 4. For "Employment Related Transportation, the Qualified Vendor shall bill the Division the rural rate only when a low-density rate has been authorized for the same consumer's employment supports and services.

Unit of Service

- 1. One unit of service equals one trip per person one way, one mile of traveled distance, or 30 minutes of waiting time.
- 2. Mileage reimbursement is limited to loaded mileage. Loaded mileage is the distance traveled, measured in statute miles, while a consumer is on board and being transported.

Modified Rates

The Division established separate exceptional transportation modified rates for "Flat Trip Rate for Regularly Scheduled Daily Transportation" and 'Employment Related Transportation." Those situations where these modified rates are used will be considered time-limited in order to seek day programs closer to a consumer's home long term or to develop an alternative so that consumers are not transported for so much of their day. For "Flat Trip Rate for Regularly Scheduled Daily Transportation," these modified rates are capped at 50 consumers statewide annually based on the premise that these are temporary or transitional modified rates.

Single Person Modified Rate

- 1. This modified rate is to be used when a consumer has significant transportation needs associated with behavior needs (e.g. needs an aide to ride on the vehicle), wheelchair or other equipment needs or location and needs a single person transport.
- 2. The DDD Program Administer/Manager, Central Office Business Operations and Program Operations must approve the request for a single person modified rate. The request needs to include an explanation of what the consumer's support needs are and what alternatives were explored, such as vendor calls or finding routes that the consumer can share a ride with others.

Arizona Department of Economic Security, Division of Developmental Disabilities SFY 07 Adopted Rates, Conversion to Daily Rates Introduction

Purpose of This Schedule

This schedule converts the staff hourly rates to daily rates for the services of Habilitation, Community Protection and Treatment Group Home and Habilitation, Group Home. The rates on these schedules are to be used for these two services when billing the Division.

Rates

- If at least one of the residents in the facility is authorized to receive Habilitation, Community
 Protection and Treatment Group Home, the Qualified Vendor may bill the Division the Habilitation,
 Community Protection and Treatment Group Home rate for all residents in the facility. Otherwise, the
 Qualified Vendor must bill the Division the Habilitation, Group Home rate for all residents in the
 facility.
- If the resident that requires Habilitation, Community Protection and Treatment Group Home direct service hours moves out of the facility, the Qualified Vendor may continue to bill the Division at the Habilitation, Community Protection and Treatment Group Home rate for the reduced number of residents for a 60 day period, at which point the facility will be delivering Habilitation, Group Home services.
- The daily rates for these services are based on Staff Hour unit of service. Staff Hours are the hours
 provided by the Qualified Vendor that the Division authorizes the Qualified Vendor to schedule and
 provide at the service site to assure health, safety, and the delivery of habilitation services to the
 residents.
- 4. The Division will make payments to the Qualified Vendor on the per diem basis based on the hourly rate for the Staff Hour unit of service, the number of residents in the home, and the direct service hours provided up to the number of authorized direct service hours for the home. In Schedules 6A and 6B, the adopted rate includes incontinent supplies and nutritional supplements as indicated. These modified rates will be approved by the Division for each consumer on a case-by-case basis.
- 5. Schedules 6A and 6B contain 14 tables with Daily Rates, and each table refers to one of 14 ranges. Each range represents a level of staffing with the number of direct service hours that are authorized by the Division to be provided by the Qualified Vendor at a particular group home during a week. A week is a consecutive seven day stretch of time that begins at midnight on Sunday and ends at 11:59 p.m. the following Saturday. The number of hours specified in each range represents the number of direct service hours the Qualified Vendor must provide in a week in order to bill the *per diem* rates associated with that range. These Daily Rates are statewide for all Group Home services.

Arizona Department of Economic Security, Division of Developmental Disabilities SFY 07 Adopted Rates, Conversion to Daily Rates Introduction

- 6. The Qualified Vendor shall invoice for payment for each consumer the *per diem* rate that reflects the number of residents in the group home and the range of hours provided in a week that reflect the lesser of 1) the authorized direct service hours, or 2) the actual direct service hours delivered. The Qualified Vendor may calculate the weekly direct service hours weekly, or may calculate a monthly average of weekly direct service hours at the end of the month for that month.
- 7. If the Qualified Vendor elects to calculate a monthly average of weekly direct service hours at the end of the month, the Qualified Vendor shall determine the total number of direct service hours in a given month and determine the average number of direct service hours per week by dividing (the total number of direct service hours in a month) by (the number of weeks in a month).
 - If there are 31 days in a month, then the number of weeks in a month is 4.43
 - If there are 30 days in a month, then the number of weeks in a month is 4.29
 - If there are 29 days in a month, then the number of weeks in a month is 4.14
 - If there are 28 days in a month, then the number of weeks in a month is 4.00
- 8. The *per diem* rates paid to a Qualified Vendor with multiple homes will vary among homes according to the authorized direct service hours, actual direct service hours provided, and number of residents at each group home.
- 9. Because direct service hours provided can vary by week (if the Qualified Vendor does not elect to calculate a monthly average of weekly direct service hours), and the number of occupants can vary both by week and within a week, the Qualified Vendor may bill more than one per diem rate for each resident on their monthly invoice, but none of the rates billed shall be in excess of the rate which reflects the number of authorized direct service hours.
- 10. The Qualified Vendor shall use the actual resident occupancy to determine the *per diem* rate to be billed to the Division. The actual resident occupancy includes all residents, whether or not they are funded by the Division. The Qualified Vendor must notify the DDD Program Administrator/Manager or designee about movement into or out of a home by any resident, whether or not funded by the Division. The Division shall determine if direct service hours will be adjusted on a temporary or permanent basis to reflect the need for direct service hours.
- 11. If a resident is not in the group home facility on a particular day, the Qualified Vendor shall not bill the Division for this resident. In this situation, the Qualified Vendor shall bill the Division the *per diem* rate for the actual number of Division-funded residents.

If Habilitation, Community Protection and Treatment Group Home is provided by the Qualified Vendor for pre-authorized hours that are not shown on this schedule, the Qualified Vendor should contact their District Program Manager or Designee to obtain the proper rate to bill.

NOTES: The box shaded in yellow indicates that the element of the rate schedule is either new or was changed from the January 1, 2006 release. This may also apply to boxes shaded in gray. The box shaded in gray indicates that the District Program Administrator/Manager must approve this level of service authorization, and that continuing authorization will be contingent upon AHCCCS ongoing approval of cost-effectiveness plans submitted by the Division.

If Habilitation, Group Home is provided by the Qualified Vendor for pre-authorized hours that are not shown on this schedule, the Qualified Vendor should contact their District Program Manager or Designee to obtain the proper rate to bill.

Arizona Department of Economic Security, Division of Developmental Disabilities Arizona Independent Provider Rate Schedule Introduction

Purpose of This Schedule

This schedule contains the history of the calculation of the maximum benchmark and adopted rates for Independent Providers from SFY 05 to date. "Benchmark rate" refers to the lesser of the maximum assessed rate, determined through the Arizona Individual Rate Assessment Tool, and the agency adopted rate for the same service. "Adopted rate" is calculated based on the phase in methodology of the Independent Providers Rate Schedule (see below). The provider's rate will be consumer-specific based upon the Arizona Individual Rate Assessment Tool and the Arizona Independent Provider Rate Schedule implemented on April 1, 2004. Full implementation of the rate schedule has occurred in three phases.

1. Phase I Rules

Phase I rate rules were in effect from the inception of the rate schedule through September 30, 2005. If the consumer was new to the system, was using a provider for the first time, or did not receive services from a provider between April 1, 2004 and June 30, 2004, the provider's rate was not to exceed the Phase I adopted rate. If the consumer had received services from a provider between April 1, 2004 and June 30, 2004 the rate for that provider was determined based on the following rules:

- 1.1 If the provider's *highest* pay file rate during the period of *April 1, 2004 and June 30, 2004* for a particular consumer was equal to or greater than the adopted rate, the "rate to pay" for the provider was the *highest* pay file rate during the period of *April 1, 2004 to June 30, 2004* for that consumer during Phase I.
- 1.2 If the provider's *highest* pay file rate during the period of *April 1, 2004 and June 30, 2004* for a particular consumer was less than the adopted rate, the "rate to pay" for the provider was the new adopted rate. The adopted rate was equal to 92% of the benchmark rate.
- 1.3 No rate falls below the Federal minimum hourly wage adjusted for employer payroll taxes (\$5.54 as of the date of publication).
- 1.4 No rate falls below the corresponding 2003 floor rate.
- 1.5 No benchmark rate exceeds the established agency adopted rate for that service. Per Rule 1.1, a provider could have been paid at a rate that was higher than the agency rate for the same service.

2. Phase II Rules

Phase II rate rules were in effect beginning October 1, 2005. All rates moved to the benchmark rate with a stop loss provision which prevented any rate for a provider for a particular consumer from decreasing by more than 10% from the highest pay file rate during the period of April 1, 2004 to June 30, 2004.

3. Phase III Rules

Phase III rate rules went in effect beginning July 1, 2006. All rates moved to the benchmark rates.

4. Multiple Client Rates - General Rules

Providers shall bill a "group" rate when providing the same service to more than one consumer at the same time. This is known as a Multiple Client Rate (MCR). The multiple client rate is calculated separately for each provider-consumer combination. The following rules apply to the calculation of the MCR rates:

4.1 If a provider is providing the same service to two consumers at the same time, this provider shall use the published rate for each consumer, multiply it by 1.25 and then divide each rate by 2.

Example: For a given service, one provider is providing service to two consumers at the same time. Client A has a rate of \$10.00 and Client B has a rate of \$12.00.

- 1. The MCR rate for Client A is equal to \$10.00 * 1.25 / 2, or \$6.25.
- 2. The MCR rate for Client B is equal to \$12.00 * 1.25 / 2, or \$7.50.
- 4.2 If a provider is providing the same service to three consumers at the same time, this provider shall use the published rate for each consumer, multiply it by 1.5 and then divide each rate by 3.

Example: For a given service, one provider is providing service to three consumers at the same time. Client A has a rate of \$10.00, Client B has a rate of \$12.00 and Client C has a rate of \$14.00.

- 1. The MCR rate for Client A is equal to \$10.00 * 1.5 / 3, or \$5.00.
- 2. The MCR rate for Client B is equal to \$12.00 * 1.5 / 3, or \$6.00.
- 3. The MCR rate for Client C is equal to \$14.00 * 1.5 / 3, or \$7.00

For the exception to these General Rules, see the MCR Exception section on the next page. In no event shall an independent provider serve more than three consumers at the same time.

Arizona Department of Economic Security, Division of Developmental Disabilities Arizona Independent Provider Rate Schedule Introduction

5. MCR Exception

Exception to the General Rules will be made only during Phase I in the instance where a consumer has received a given service from the same provider between December 1, 2002 and March 31, 2004.

A provider will be compensated at the "exception rate" for all consumers for which this condition applies. The "exception rate" is based on the rules outlined in the **Phase I Rules** section on the previous page. Under this exception, a provider will be reimbursed at the exception rate for a given consumer even if the same service is provided to more than one consumer at the same time.

In no event shall an independent provider serve more than three consumers at the same time.

- Example: For a given service, one provider is providing service to two consumers at the same time. Client A is subject to the MCR Exception and has a rate of \$15.00. Client B is not subject to the MCR Exception and has a rate of \$12.00.
 - 1. Client A does not have a MCR rate. This client's rate remains at \$15.00.
 - 2. The MCR rate for Client B is equal to \$12.00 * 1.25 / 2, or \$7.50.
- Example: For a given service, one provider is providing service to two consumers at the same time. Both Clients A and B are subject to the MCR Exception. Client A has a rate of \$15.00 and Client B has a rate of \$12.00.
 - 1. Client A does not have a MCR rate. This client's rate remains at \$15.00.
 - 2. Client B does not have a MCR rate. This client's rate remains at \$12.00.
- Example: For a given service, one provider is providing service to three consumers at the same time. Client A is subject to the MCR Exception and has a rate of \$15.00. Clients B and C are not subject to the MCR Exception and have rates of \$12.00 and \$10.00, respectively.
 - 1. Client A does not have a MCR rate. This client's rate remains at \$15.00.
 - 2. The MCR rate for Client B is equal to \$12.00 * 1.5 / 3, or \$6.00.
 - 3. The MCR rate for Client C is equal to \$10.00 * 1.5 / 3, or \$5.00.

6. Agency Providers

This schedule does not list rates for agency providers. Agency providers should refer to the latest published schedule of Benchmark and Adopted rates.

7. Rate Increase

This rate schedule includes the Fiscal Year 2007 provider rate increase enacted by the Legislature in 2006.

Introduction

This document presents the assumptions and methodology used by DES/DDD in compiling the benchmark rate schedule. This methodology was updated from its previously released version (as of January 1, 2006) to account for rate revisions for the intervening fiscal years. The document is generally divided into the following sections:

- Data Sources
- □ General Assumptions
- □ Rate Models for Selected Services:
 - Home-Based Services
 - Independent Living Services
 - Day Treatment and Training Services
 - Developmental Home Services
 - Group Home Services
 - Professional Services
 - Support Coordination Services
 - Employment Support Services
 - Specialized Habilitation Services
 - Transportation Services
- □ Memo on the uses of modifiers
- □ Attachment with Arizona statewide hourly wages

This document presents a discussion of the assumptions used in the rate models. The rate examples presented in this document are generally for agency (RFQVA) providers only. An independent provider rate was developed for several services based on the agency provider rate. These independent provider rates are generally lower than the agency rates because of a reduction for employee-related expenses and administrative overhead, as well as a general cap at 75% of the agency rate. Independent provider rates are adjusted for specific consumer characteristics through the Arizona Independent Rate Assessment Tool.

Also, it should be noted that the rates presented in this document (Benchmark Rates) may be different from the actual reimbursement rates (Adopted Rates) that appear in the published rate schedule. Historically, due to budget constraints on the Division, the actual reimbursement rates (Adopted Rates) were set at a level lower than the Benchmark Rates. For SFY 07, the Adopted Rates are at least equal to the Benchmark Rates. There are instances where the Adopted Rates are higher than the Benchmark Rates. These are instances where the Division has frozen rates at a historical level that is higher than the rate reflected in the independent model for the service.

The first set of Benchmark Rates for most services was developed through an independent model rate setting process for SFY 2004. In accordance with the legislative mandate, the Division has to conduct another rate setting study five years after the implementation of the original published rate schedule, or for SFY 2009. In the interim, the Division has implemented a set of measures aimed to:

- □ Adjust Benchmark Rates for the rising costs of providing services (e.g., inflation)
- □ Narrow the gap between Adopted and Benchmark rates

Generally speaking, the following changes to Benchmark and Adopted rates were made since the original release of the published rate schedule in SFY 04 (SFY 04 referred in the table below as a "Base Year"):

	Benchmark Rates	Adopted Rates
SFY 04 Base Year	Rate established through an independent model rate setting process	93.00% of the Benchmark rate
SFY 05	Increased by 4.25%	Increased by 7.34% to bring the ratio of Adopted-to-Benchmark rates to 95.75%.
First Half of SFY 06		Increased by 1.94% to bring the ratio of Adopted-to-Benchmark rates to 97.61%.
Second Half of SFY 06	Increased by 4.00%	Increased by 4.00%. The ratio of Adopted-to-Benchmark rates is maintained at 97.61%.
SFY 07	Increased by 1.60%	Increase by 2.45% to bring the ratio of Adopted-to-Benchmark rates to 100.0%

For a more detailed explanations of specific changes in a given service category, refer to the "Changes..." document that precedes this edition (and every edition) of the published rate schedule.

Modifiers

A memo at the end of this document describes the modifiers that have been incorporated into the published rate schedule.

Data Sources

The following general sources were used in constructing the original SFY 2004 rate models:

- □ Wage data from the Bureau of Labor Statistics (BLS) was used to determine the hourly wages for specific occupational categories. Wages used in the original models reflect their publication date of December 2000 and were subsequently adjusted for inflation.
- □ The Department of Administration, General Accounting Office data was used for the mileage reimbursement rate.

- □ Inflation data from the *Health Care Cost Review*, published by Global Insight (formerly DRI-WEFA), CMS Home Health Agency Market Basket was used to inflate wage costs.
- □ Rent expense is based on data from the Department of Housing and Urban Development for Fair Market Rents (FMR) for federal fiscal year 2003.
- □ Arizona's Intermediate Care Facilities for the Mentally Retarded (ICF/MR) three-level rate structure was used to determine the rate for Habilitation, Nursing Supported Group Home.
- □ Food expense is based on USDA Moderate-Cost Plan variations as of August 2002, inflated to December 2003.

General Assumptions

The following general assumptions were used throughout the original SFY 2004 rate models:

- □ The inflation factor for all wage categories is 7.85%. This reflects inflation from the December 2000 wage period of 4.2% for 2001 and 3.5% for 2002. Effective hourly wages are increased each year to the extent that overall inflation adjustments are provided for by the legislature.
- □ Employee-related expenses (ERE) is assumed at 30% of the respective wages for all full-time staff. Benefits include legally required benefits, vacation time, sick leave, holidays and health insurance. (See *Employee-Related Expenses Assumptions* discussion below).
- □ Total Hours assumed at 8 hours per day and 2,080 hours per year (unless otherwise indicated).
- □ With 365 days in a year, the average number of days per month assumed at 30.4.
- □ Administrative overhead is assumed at 10% of total non-travel cost (unless otherwise indicated).

Wage Assumptions

Wages were selected based on occupational descriptions provided by BLS. Depending on the required activities provided in the service descriptions, certain services reflect a blended rate of wage averages of more than one occupation. Attachment 1 at the end of this Methodology lists the table of Arizona statewide hourly wages as of December 2000 that were used in original SFY 2004 rate models.

Employee-Related Expenses Assumptions

A 30% ERE rate was used for agency providers. The thirty percent was derived from the following information:

Agency Providers

		Base Rate	Base Rate	Base Rate
Hourly Rate		\$8.09	\$9.12	\$10.99
Annual Wage		\$16,827	\$18,970	\$22,859
FUTA / SUTA	2.80%	\$196	\$196	\$196
FICA	7.65%	\$1,287	\$1,451	\$1,749
Legally required benefits	10.45%	\$1,483	\$1,647	\$1,945
Vacation	80 hrs/yr	\$647	\$730	\$879
Sick Leave	48 hrs/yr	\$388	\$438	\$528
Holidays	72 hrs/yr	\$582	\$657	\$791
		Base Rate	Base Rate	Base Rate
Health Insurance	\$170	\$2,040	\$2,040	\$2,040
Total ERE per employee		\$5,141	\$5,511	\$6,183
		30.55%	29.05%	27.05%

A 20.5% ERE rate was used for non-agency providers. The 20.5% was derived from the following information:

Independent Providers

Hourly Rate	
Annual Wage	
FUTA	2.80%
FICA	7.65%
Legally required benefits	8.45%
Vacation	0 hrs/yr
Sick Leave	0 hrs/yr
Holidays	0 hrs/yr
Health Insurance	\$170
Total ERE per employee	

Base Rate	Base Rate	Base Rate
\$8.09	\$9.12	\$10.99
\$16,827	\$18,970	\$22,859
\$196	\$196	\$196
\$1,287	\$1,451	\$1,749
\$1,483	\$1,647	\$1,945
\$0	\$0	\$0
\$0	\$0	\$0
\$0	\$0	\$0
\$2,040	\$2,040	\$2,040
\$3,523	\$3,687	\$3,985
20.94%	19.44%	17.43%

These ERE assumptions do not include the factors of part-time employees and turnover. At 20% for each of these factors, ERE for agency providers is reduced to approximately 22%.

The wages presented in ERE tables above reflect the wages used in the original SFY 2004 rate models. Subsequent increases to the "bottom line" rates have increased the <u>effective</u> amount of hourly wages as a component of the rate model. As a general rule, ERE percent decreases as hourly wages increase, assuming all components of the ERE model remain constant.

Multi-Client Rate Adjustments

With some services, it is possible to provide the same service simultaneously to multiple clients. The formula for the multi-client rate adjustment is as follows:

 \Box (Regular Rate * ((1 + (25% * number of additional clients))) / Total number of clients.

Home-Based Services

Home-Based services include the following service codes, provided by DDD-accredited service providers:

- □ Attendant Care
- □ Habilitation, Support
- Housekeeping
- □ Respite (short-term and continuous)
- □ Habilitation, Community Protection and Treatment Hourly

Attendant Care

Although there are two distinct services, *Attendant Care* and *Family Attendant Care*, the Division combined these services into one rate. Two different models, however, were originally developed to reflect different assumptions in travel time and mileage allowance between these services. The final model presented below represents the *Attendant Care* rate model, which results in the higher rate.

Day Treatment and Training Services

Individual rate models were developed for Day Treatment and Training for adults and Day Treatment and Training for children. Since the introduction of the model in SFY 2004, the Division revised the benchmark model by permanently including the Transition Staffing Factor (TSF) as part of the Benchmark Rate.

General Assumptions

The Day Treatment and Training programs have different assumptions for adult and children programs.

The following general assumptions were made for the Day Treatment and Training, Adult programs:

- □ Four models were developed to distinguish different ratios of total direct care service staff hours with consumers present at the program to total consumer hours.
- □ Day Treatment and Training, Adult facility assumed in service 250 days per year, although expenses are allocated over 200 days of client attendance, which was assumed as the level of attendance for Day Treatment and Training, Adult consumers. This assumption was derived from the data obtained from the Division's Professional Billing System (PBS)_claims processing system.
- □ Total hours assumed at 8 hours per day.
- □ Average productivity at the program assumed at 7 hours.
- □ Each Day Treatment and Training, Adult center assumed to have 16 consumers per day.
- □ Capital expense assumed as follows:
 - Each Day Treatment and Training, Adult center assumed to have 2,000 square feet.
 - Average cost per square foot assumed at \$12.00 per annum.
- □ Transportation expense assumed as follows:
 - Total vehicle expense assumed at \$40,000, with a five-year straight-line depreciation and expressed as a daily expense of \$47.06.

- Total insurance expense assumed at \$3,600 per year, expressed as a daily expense of \$21.18.
- Vehicle allocation assumed at 20 (twenty) percent for program-related transportation and 80 (eighty) percent for pick-up and drop off of consumers.
- Staff hour allocation assumed at 20 (twenty) percent for supervision of consumers during pick-up and drop off and 80 (eighty) percent for transportation service.

The following general assumptions were made for the Day Treatment and Training, Children programs:

- □ The DDD established one common rate model for both Day Treatment and Training, Children programs After-School and Summer.
- □ Four models were developed to distinguish different ratios of total direct care service staff hours with consumers present at the program to total consumer hours.
- □ Employee related expenses (ERE) assumed at 15 (fifteen) percent due to the part-time nature of the job.
- □ Day Treatment and Training, Children facility assumed in service 240 days per year (20 week days each month).
- □ Total hours assumed at 4.25 hours per day.
- □ Average productivity at the program assumed at 4 hours.
- □ Each Day Treatment and Training, Children center assumed to have 6 consumers per day.
- □ Capital expense assumed as follows:
 - Each Day Treatment and Training, Children center assumed to have 1,000 square feet.
 - Average cost per square foot assumed at \$10.00 per annum.
- ☐ Transportation capital expense assumed as follows:
 - Total vehicle expense assumed at \$26,000, with a five-year straight-line depreciation and expressed as a daily expense of \$21.67 based on the number of days facility is in service (\$26,000/5yrs/240 days = \$21.67 per day).
 - Total insurance expense assumed at \$3,600 per year, expressed as a daily expense of \$15.00 based on the number of days facility is open (\$3,600/ 240 days = \$15.00 per day).
 - Vehicle allocation assumed at 20 (twenty) percent for program-related transportation and 80 (eighty) percent for pick-up and drop off of consumers.
 - Staff hour allocation assumed at one hour for transportation services.

Service-Specific Assumptions

The following assumptions were made for each Day Treatment and Training service category:

Day Treatment and Training, Adult

Rural Day Treatment and Training, Adult Rate

A rural rate for Day Treatment and Training, Adult was developed for agency providers. The Rural Day Treatment and Training, Adult model is similar to a regular Day Treatment and Training, Adult model, except for the following differences:

- ☐ The Rural Day Treatment and Training, Adult model is based on 6 consumers.
- □ Each Rural Day Treatment and Training, Adult center assumed to have 1,000 square feet.
- □ The transportation capital assumes a lower annual vehicle cost and a higher mileage for both program-related and pick-up/drop-off transportation.

Developmental Home Services

Individual rate models were developed for developmental home habilitation for adults and children, which are also applicable for the services of State supported developmental home (adults and children). Also, a separate model was developed for the agency provider costs, which is only applicable to services of Vendor supported developmental home (adults and children).

Service-Specific Assumptions

The following general assumptions were made for the rate models for both adults and children:

- □ Costs calculated on *per individual per day* basis.
- Administrative overhead is assumed at 2 (two) percent of total non-travel cost.
- □ For adults, the food expense assumed at \$220.21 per person per month, or \$7.24 per person per day, based on USDA Moderate-Cost Food Plan variations (for males) as of August 2002, inflated to December 2003, as indicated in Table 1. The USDA costs can be viewed at www.usda.gov.

51 years and over	\$211.44	\$6.96
Assumed Cost: average	\$220.21	\$7.24

□ For children, the food expense assumed at \$199.00 per person per month, or \$6.55 per person per day, based on USDA Moderate-Cost Food Plan variations as of August 2002,

inflated to December 2003, as indicated in Table 2. The USDA costs can be viewed at www.usda.gov.

Group Home Services

Individual rate models were developed for providers with Habilitation, Group Home and Habilitation, Community Protection and Treatment Group Home. Each model consists of two parts: the Habilitation Service part and the Room and Board part.

Purpose of the Rate Model

Traditionally, DDD reimbursed its Residential Services providers with a daily unit rate. The purpose of the Habilitation, Group Home and Habilitation, Community Protection and Treatment Group Home rate models is to express the Habilitation Service part of the model in terms of an hourly Full-Time Equivalency (FTE) staff hour unit.

Room and Board, All Group Homes Assumptions

The following assumptions were made for Room and Board, All Group Homes, rate models:

□ Capital expense assumption is Rental payments based on the size of the facility and its geographical location as indicated in Table 3:

Table 3

	Number of bedrooms						
	1	2	3	4	5	6	
Flagstaff	\$660	\$857	\$1,149	\$1,380	\$1,587	\$1,825

Yuma/Yavapai	\$478	\$636	\$884	\$890	\$1,024	\$1,177	
Non-metropolitan		Same as Yuma/Yavapai					

□ Utility assumptions outlined in Table 4 are based on research from Arizona Public Service Online Home Analyzer tool as of October 17, 2002 and the City of Phoenix Manager's Executive Report for 1999-2000:

Table 4

		Number of bedrooms (per month costs)					
	1	2	3	4	5	6

□ Maintenance expense assumed at \$50 per month for a two-bedroom facility (assuming a three-person occupancy), with \$5.00 decrease/increase for each additional bedroom as indicated in Table 5:

Table 5

	Number of bedrooms					
	1	1 2 3 4 5 6				
Maintenance	\$45.00	\$50.00	\$55.00	\$60.00	\$65.00	\$70.00

	1 2 3 4 5 6					
Telephone	\$20.00	\$25.00	\$30.00	\$35.00	\$40.00	\$45.00

□ On average, meal expense assumed at \$218.35 per person per month. Meal expense is based on USDA Moderate-Cost Plan variations as of August 2002, inflated to December 2003, as indicated in Table 7:

Table 7

Food per person per month	
20-50 years old	\$225.26
51 years old and over	\$211.44
Average	\$218.35

Vehicle Assumptions

The following assumptions were made about vehicle expense in both Habilitation, Group Home and Habilitation, Community Protection and Treatment Group Home:

- □ Vehicle lease assumed at \$500 per month.
- □ Vehicle insurance assumed at \$200 per month.
- □ Vehicle maintenance assumed to be included in mileage reimbursement at 34.5 cents per mile.
- □ Either same type of vehicle is utilized in group homes of different capacity and vehicles last longer in group homes with smaller capacity, or group homes with smaller capacity purchase vehicles that are cheaper than those of group homes with larger capacity.
- \Box There are 173.33 hours per month (2,080 / 12).

The following methodology was used to convert the vehicle expense (fixed cost) into the hourly FTE unit:

- □ From the Habilitation, Group Home SFY 01 payment file provided by DDD:
 - It was assumed that July 2001 capacity is equivalent to 100% utilization.
 - All 522 sites were sorted based on July 2001 capacity.
 - From the distribution of capacity, number of corresponding sites and average FTE per site, it was assumed that the average FTE per site increases with the increasing capacity as indicated in Table 8:

Table 8

Capacity	Number of Sites	Average FTE per Site	Median FTE per Site	Std. Dev. FTE per Site
1	40	3.69	3.80	2.24
2	85	4.71	4.67	1.88

>=8	7	9.41	7.50	3.89

□ 472 sites with capacity between two and six clients, or 90% of the total number of sites, were evaluated as indicated in Table 9:

Table 9

Capacity	Number of Sites	Average FTE per Site	Median FTE per Site	Std. Dev. FTE per Site
Total for all cap	522	6.02	6.22	2.06
2 <= cap >= 6	472	6.16	6.23	1.84

□ Vehicle expense per FTE was converted according to the following formula: (\$700 fixed vehicle expense per month) / ((6.16 average FTE per site) x (173.33 hours per month)) = 65.56 cents per FTE hour.

Transportation Assumptions

The following assumptions were made about transportation expense:

• On average, total daily mileage allowance per facility assumed at 40 miles, as indicated in Table 10:

Table 10

Activity	Mileage
Doctor's appointment	10
Day Treatment and Training or similar	20
Recreational activities	10
Total	40

- Total average hours per day assumed at 35, calculated as: $(6.16 \text{ average FTE per site}) \times (2,080 \text{ hours per year}) / (365 \text{ days per year}) = 35.1 \text{ hours per day}$.
- On average, every direct care staff member has 1.14 miles of work-related commute per hour, calculated as: (40 miles per day) / (35.1 hours per day) = 1.14 miles per hour.

Service-Specific Assumptions

The following assumptions were made for each Residential Services category:

The Habilitation, Community Protection and Treatment Group Home model is also applicable to Habilitation, Community Protection and Treatment Hourly, a Home-Based Service mentioned in the *Home-Based Services* section above.

Habilitation, Nursing Supported Group Home

The Habilitation, Nursing Supported Group Home rates are based on 80 percent of the Arizona's Intermediate Care Facilities for the Mentally Retarded (ICF/MR) rates for three levels. Tables 11a, 11b and 11c outline the ICF/MR rates, Habilitation, Nursing Supported Group Home rates for July 1, 2005, January 1, 2006 (which include a 4% increase to the rate) and the Habilitation, Nursing Supported Group Home rates for July 1, 2006.

Room and Board, All Group Homes

It is assumed that room and board requirements are the same for all group home services. Table 13 indicates the daily per-person Room and Board rate with the following assumptions:

- □ This is a two-bedroom facility.
- □ There are three individuals in this facility.
- □ This facility is located in Flagstaff metropolitan area.

Table 13

Assumption	Calculation	Monthly Value	Daily Value
Rent	\$857/3	\$285.67	\$9.39
Utilities	\$161.76/3	\$53.92	\$1.77
Telephone	(\$25+\$5)/3	\$10.00	\$0.33
Maintenance	\$50/3	\$16.67	\$0.55
Food	\$218.35/1	\$218.35	\$7.18
Total		\$584.60	\$19.22

The Room and Board rate is based on the average individual occupancy in the facilities of different sizes (number of bedrooms). Similar to other services, SFY 2004 original Benchmark Rates have been adjusted by 4.25% for SFY 2005 / 2006 and adjusted by 4% for January 1, 2006.

Professional Services

Therapies

Beginning with November 1, 2005, the Division implemented a set of rates for therapy services, which include Occupational Therapy, Physical Therapy and Speech Therapy. Prior to this rate setting initiative, the Division used an internally developed rate schedule; no rates were developed through independent models. For all three therapy services, the Division implemented one common "base" rate with the following assumptions:

- □ Services are provided in the clinical setting (e.g., provider's office).
- □ Services are provided for ongoing therapy. The Division will publish a separate rate for evaluation therapy services.

Since the independent model presented in this Methodology was developed in SFY 2006, assumptions used in individual components reflect the latest available information from third-party sources. While these assumptions may show a higher value than a similar assumption used in other models (e.g., mileage reimbursement in Attendant Care), on aggregate, rate adjustments made to these other rates in SFY 2005 and 2006 reflect changes in SFY 2006 Benchmark Rates if these rates were developed using the latest available information but without rate adjustments.

Nursing, Continuous

If nursing is provided for more than 16 hours in one day, this is considered to be Nursing, Continuous. One unit of Nursing, Continuous equals one day (16 or more hours in a 24-hour period) of direct service.

The SFY 2004 Benchmark Rate for this service is equal to \$571.04 (\$35.69/hr * 16 hours). Following an inflationary adjustment of 4.25%, the Benchmark Rate for this service is equal to \$595.31 in SFY 2005 / 2006. An additional inflationary adjustment of 4% yields a Benchmark

Rate of \$619.12 for January 1, 2006. The Benchmark Rate for SFY 2007 has increase to \$628.41, and, the Adopted-to-Benchmark ratio for SFY 2007 is set at 100.0%.

Support Coordination Services

The models for Support Coordination services, also known as Case Management services, are based on the capitation model developed by the Arizona Health Care Cost Containment System (AHCCCS) for the fiscal year 2007.

Employment Support Services

Individual rate models were developed for Center-Based Employment, Group Supported Employment and Individual Supported Employment. In addition, two separate models were developed for Employment Support Aide: one for Center-Based Employment and another for Group Supported Employment and Individual Supported Employment.

General Assumptions

The following general assumptions were used in the rate models:

- Providers in *low-client density* areas will likely travel farther on each in-program trip (all models), spend less time doing direct service as more time is spent in travel (Group Supported Employment and Individual Supported Employment), have smaller facilities (Center-Based Employment only), have a slightly lower cost per square foot for their facility space (Center-Based Employment only), and need more square footage per service staff (Group Supported Employment and Individual Supported Employment).
- □ For Center-Based Employment and Group Supported Employment, billable time is defined as time spent in direct contact with clients.
- □ For Individual Supported Employment, time spent either directly with a client or certain categories of time on behalf of a client (such as report writing) is billable.
- □ Employee-related expenses (ERE), including such items as health insurance benefits and vacation time, are assumed to be 34 percent of wages for all service models.

Data Sources

Sources of data for Employment Services are sometimes different than those used in other independent models. Specific data sources used in model components include:

- □ Hourly Direct Service Wage: Data and weightings are based on data from the Bureau of Labor Statistics (BLS), the Employment Support Services (ESS) Provider Survey (distributed and collected by Mercer Government Human Services Consulting (Mercer)), and Mercer's professional experience.
- □ **Employee Related Expenses (ERE):** ESS Provider Survey, as well as Mercer's professional experience.
- □ **Program Expenses**: ESS Provider Survey, other DDD rate models, and Mercer's professional experience.
- □ **Administrative Expenses**: ESS Provider Survey, other DDD rate models, and Mercer's professional experience.
- □ **Absence Factor**: ESS Provider Survey and billing data provided by the individual districts.
- □ **High versus Low Density Rate**: SFY 2004 utilization data and Mercer's proprietary zip code analysis.

Center-Based Employment

The following general assumptions were made for the Center-Based Employment programs:

- □ Two models were developed for Center-Based Employment to distinguish areas of high and low density.
- □ Total hours assumed at 8 hours per day.
- □ Average billable hours at the program assumed at 7 hours.
- □ Each high-density Center-Based Employment center assumed to have 16 expected consumers per day, compared to 6 expected consumers for a low-density Center-Based Employment center.
- □ Absence Factor of 14% assumes that an average *actual* number of consumers will be at 13.76 and 5.16 in high and low density areas, respectively.
- ☐ The ratio of staff members to consumers assumed at 1:6.
- □ Capital expense assumed as follows:
 - Each high-density Center-Based Employment center assumed to have 2,000 square feet. Low-density center assumed to have 1,000 square feet.
 - Average cost per square foot in a high-density Center-Based Employment center assumed at \$12.00 per annum, compared to \$11.50 to a Center-Based Employment center in a low-density area.

Group Supported Employment

The following general assumptions were made for the Group Supported Employment programs:

- □ Four models were developed for Group Supported Employment to distinguish between size of the group, as well as areas of high and low density.
- □ Total hours assumed at 8 hours per day.
- □ Average productivity at the program assumed at 6 hours in high-density areas and 5.50 hours in low-density areas.

- □ A 2.5% effective client absence rate assumed for larger groups; 3.0% assumed for smaller groups.
- □ Capital expense assumed as follows:
 - Each high-density Group Supported Employment office assumed to have 600 square feet. Low-density office assumed to have 700 square feet.
 - Average cost per square foot in both high- and low-density areas assumed at \$12.00 per annum.

Model for a low-density area is similar to that for a high-density area, except for the following:

- □ Allowance for travel time is greater at 1.25 hours.
- □ Mileage per trip allowance is greater at 25 miles
- □ Square footage allowance is greater at 700 square feet
- □ Capital expense is greater at \$6.11 per billable hour

As a result of these revisions, the SFY 06 benchmark rate for a large-group Group Supported Employment service in a low-density area is \$38.92. Additionally, the SFY 07 benchmark rate is \$39.50.

- □ Allowance for travel time is greater at 1.25 hours.
- □ Mileage per trip allowance is greater at 18 miles
- □ Square footage allowance is greater at 700 square feet
- □ Capital expense is greater at \$6.11 per billable hour

As a result of these revisions, the SFY 06 benchmark rate for a large-group Group Supported Employment service in a low-density area is \$40.02. Additionally, the SFY 07 benchmark rate is \$40.62.

Individual Supported Employment

The following general assumptions were made for the Individual Supported Employment models:

□ Two models were developed for Individual Supported Employment to distinguish areas of high and low density.

- □ Total hours assumed at 8 hours per day.
- □ Average productivity at the program assumed at 7.75 hours in both high- and low-density areas.
- □ A 0.25% effective client absence rate assumed to account for absences.
- □ Capital expense assumed as follows:
 - Each high-density Individual Supported Employment model assumes to have 400 square feet. Low-density model assumes to have 575 square feet.
 - Average cost per square foot in both high- and low-density areas assumed at \$12.00 per annum.

Employment Support Aide

The following general assumptions were made for the Employment Support Aide models:

- □ Four models were developed for Employment Support Aide. One set of rates is to be used for aides in Center-Based Employment programs in high- and low-density areas. The other two models are for either Group Supported Employment or Individual Supported Employment, also in high- and low-density areas
- □ Total hours assumed at 8 hours per day.
- □ Average productivity at the program assumed at 7.75 hours for Center-Based Employment and 7.00 for Group Supported Employment / Individual Supported Employment.

Specialized Habilitation Services

Specialized Habilitation with Music Component

The rate for Specialized Habilitation with Music Component was originally developed for SFY 2004. Therefore, assumptions and sources of data used in the independent model for this service are those that were outlined on pages 2-4 of this Methodology.

Habilitation, Communication

The rate for Habilitation, Communication was originally developed for SFY 2006. Assumptions and sources of data used in the independent model for this service are identical to those that were outlined on pages 2-4 of this Methodology; however the actual figures used were updated to represent the current costs.

Transportation Services

Non-Emergency Ground Transportation

Published rates reflect selected services and rates published by the Arizona Health Care Cost Containment System (AHCCCS). AHCCCS rates represent Benchmark Rates for the Division. Therefore, some of the rates have been reduced subject to the Division's ratio of Adopted-to-Benchmark rates. For SFY 07, the ratio of Adopted-to-Benchmark rates for all services is at least 100.0%.

Other Transportation Services

Assumptions for *Flat Trip Rate for Regularly Scheduled Daily Transportation* rates are outlined in the *Day Treatment and Training Services* section of this Methodology.

Rates for *Employment Related Transportation* are equal to those for *Flat Trip Rate for Regularly Scheduled Daily Transportation*.

Benchmark Rates for both Flat Trip Rate for Regularly Scheduled Daily Transportation and Employment Related Transportation have been inflated by 4% for January 1, 2006. For SFY 07 the Adopted-to-Benchmark rates for both services have been raised to 100.0%.

RE: Use of Modifiers in Rate Setting Models

This memo addresses the use of modifiers throughout the various rate models, where each rate model was created for a respective service code. A modifier is a factor, or assumption, that may be adjusted based on a type or number of criteria affecting such assumption. The first section of this memo refers to the ten modifies that are currently used in various models. The second section addresses the use of additional modifiers that may be used to further differentiate the rates.

Currently Used Modifiers

In an effort to both properly reflect the different types of services offered by the Division to its population and, at the same time, eliminate complexities on the Division's systems and service tracking, EP&P Consulting limited its use of modifiers to the following ten types:

- 1. For Habilitation, Group Home (HAB) and Habilitation, Community Protection and Treatment Group Home (HPD), a matrix of authorized staff hours was developed that allows different number of FTE, depending on the size of the facility and needs of individuals in the facility.
- 2. For Day Treatment and Training services, the *per consumer per program hour* rate is based on the ratio of total direct care service staff hours with consumers present at the program to total consumer hours.
- 3. For Day Treatment and Training, Adult (DTA), a Rural Day Treatment and Training, Adult rate was developed for agency providers. Among other differences, while the standard DTA model is based on 16 consumers in the Day Treatment center, the Rural DTA model is based on 6 consumers. This code is only to be used when the potential client base of the program size has fewer than 20 consumers in a 40 mile radius.
- 4. Room and Board, All Group Homes uses a modifier for different districts throughout the state that reflects the discrepancy among the Fair Market Rents throughout the different districts. Districts 1, 2 and 3 refer to specific MSAs as used by the U.S. Department of Housing and Urban Development (HUD).

- 5. "Capacity" and "Actual Occupancy" modifiers were used in the Room and Board, All Group Homes rates. Within each district, Room and Board rates vary by the capacity and number of consumers in the Group Home.
- 6. For therapy services, a modifier of non-billable travel time and mileage allowance was used to distinguish between services provided in clinical versus natural settings.
- 7. A multiple clients modifier was used to establish a *per client* rate in situations when the same service is provided to more than one client at the same time and within the same setting. This multi-client modifier was used primarily with rate setting for In-Home Services, and the formula for multi-client modifier is as follows: (Regular Rate * ((1 + (25% * number of additional clients))) / Total number of clients.
 - For example, the rate for Attendant Care agency provider was set at \$14.15 per client hour. Using the multi-client modifier formula, the *per person per client hour* rate was set at \$8.84 for two clients and one service provider, and \$7.07 for three clients and one service provider.
- 8. For independent providers, a modifier was used throughout the rate setting models to distinguish between the agency and independent providers. In most cases, the difference in rates among these two types of providers is based on reducing the agency provider rate for the Employee-Related Expense (ERE) from 30% to 20.5%, reducing the administrative overhead expense from 10% to 2% of the total non-travel cost, and eliminating the mileage allowance and reimbursement for travel between clients for independent providers. The rates for independent providers were further reduced by setting the base rates at no more than 75% of the agency provider rate. The specific rate for each consumer is based upon a set of consumer-specific characteristics obtained from an assessment and calculated by the Arizona Individual Rate Assessment Tool.
- 9. Nutritional supplements. Current models rely, where applicable, on the Moderate-Cost Food Plan cost tables published by the U.S. Department of Agriculture for assumptions on food/meal expense. The Division, however, will also make available an additional nutritional supplement modifier for consumers in group home and developmental home settings. This modifier will be approved by the Division on a case-by-case basis, and providers will be paid for these expenses in addition to the *per diem* rate and only for those consumers that require them.
- 10. Incontinent Supplies. Current rate models do not account for additional expense associated with undergarments. The Division, however, will make available an additional incontinent supplies modifier for consumers in group home and developmental home settings. This modifier will be approved by the Division on a case-by-case basis, and providers will be paid for these expenses in addition to the *per diem* rate and only for those consumers that require them.

Additional Options for Modifiers

There is a wide range of additional modifiers available to further differentiate between the various services. Some of these modifiers include:

- 1. Wages. Current models include a wage component for services rendered for a particular service offered by the Division. The wage data used in the models reflects the Arizona statewide average wages posted by the Bureau of Labor Statistics (BLS). In addition to the statewide wages, however, BLS also reports wages by Arizona Metropolitan Statistical Areas (MSAs).
- 2. Wage or allowance modifiers could also be applied for specific skills such as sign language, or additional training. This modifier would be applied to individual providers on the case-by-case basis. We have provided a template under separate cover that can be applied to any service code. Using this template, the Division will be able to adjust the wage or any other component of the model by either a dollar amount or a percent increase to derive to the appropriate rate that reflects the specific skills required for the situation.
- 3. Additional Fair Market Rent modifier. The Room and Board, All Group Homes modifiers described in the first section of this memo assumes a constant monthly rent expense for the entire district/MSA. It is possible, however, to further differentiate among specific areas within a given district. However, there are no readily available objective data sources that we identified that would allow this adjustment to be made.

High / Low Density Analysis

In order to apply a rate adjustment that reflects the differentials between high-and-low density service areas, a consumer must reside in a low-density zip code and the vendor must receive an approval to use the low-density rate. A map and comprehensive list of zip codes / Arizona cities are included below.
